THE DELEGATES AT LARGE.

We publish a card from Col. Wofford sking for the resolution under which the late district convention acted in the matter of electing delegates for the State at large to represent the party in St. Louis. Col. Wofford is mistaken in his idea that the action taken provided that the four person receiving the highest vote in the district conventions should be declared elected. At least we should infer from the language of the resolution that a vote was necessary. We give the resolution in full

Resolved, that a convention of congressional districts be called by the executive committee of each district, on Wednesday the 25th day of April, as such places as the district committees may select, to nominate two delegates and two alternates each to the national democratic convention, and that said district conventions nominate four names as delegates at-large; and if the names as delegates at large; and it the said district convention shall fail to agree in the selection of the same four delegates at large, they shall empower the state democratic executive committee to select from the names nominated four delegates for the state at large from all the names designated.

The language of the resolution is they shall fail to agree," by which we presume, was meant the agreement of the majority. But as Col. Wofford received a large number of votes than any other save the three receiving a majority vote, we believe that the State executive committee should feel it their duty to respect the wishes of the people thus expressed

and select him would appear from the esolution that the Committee have no restriction upon them in the matter of selecting alternates. The Committee will doubtless meet at an early day, and perform their duty in the premis If all the returns have not yet been sent to the Chairman, they should be without further delay.

For some years past the city of Atlanta has been gathering within its borders the best ministerial talent of the land, until for some time it has be come an admitted fact, that our pulpits are as ably supplied as those of any city in the United States. But in this particular we are threatened with a serious loss. Elsewhere will be found a report of the statement made last Sunday morning to the congregation at erable taste and sensibility, and has a rolling the central Presbyterian church by its eye for a pretty woman. will convince every one that the sole incentive to this action is duty. Conc iving it to be his duty to go to the succor of a distressed church, he determines to do so, upon the sole ground

that it is the will of God. The call is to the church at Lexing on. Va., which, we learn from a Virginia paper, numbers some two hundred ers, and offers a salary of \$2,300. The Central church of this city numbers four hundred members, and pays a salary of \$3,600. The Lexington church, however, is a most important one, surrounded as it is by four and female colleges, among the first in the United acceptance of the call, we still do not Presbyterian church of Georgia ginia. As, therefore, it seems to be entirely a matter of conscientious duty think that his judgment is in error, acton, the agent of the Atlanta Constitution hope that the Presbytery will see proper to refuse the application of the accomplished great good here, and still greater work lies before him in this city and state.

THE LIBRARY ASSOCIATION. The regular annual meeting of this Association occurs to-night at the library rooms. Apart from the pleasure attendant upon the reunion of the Association, it is highly important that there should be a large assemblage of the membership. It is necessary to an intelligent knowledge of the affairs of the library as well as to a proper supervision of the acts of those who have en entrusted with the management. At the annual meeting, also, the important duty is imposed of a nomination for a new board of management or officers, and the suggestion of such matters as would conto the greater prosperiy of the Association. We trust therefore that the meeting to-night will be largely attended by the members. The library is justly the pride of At-

anta. Comparatively but a few years are laden with a magnificen been set aside and invested as a per manent fund toward the self-suppor of the library, or toward the ere dous impetus, and the progress made

We again urge a large attendance upon the annual meeting to-night, at the Library rooms. Every member of the Association ought to feel it both his pleasure and his duty to attend. He will certainly be amply repaid for do-

After the close of the school I came down stairs and open ed the doors. Then I went up again. At that time I sent away the boys who were playing in the vestibule. After the boys had gone out and I was still in the vestibule, a little girl came up stairs, and I induced ner to go with me into the belfry. There I struck her with the club two or three times. NEW YORK, May 8 - The Herald has letter from Midland, Georgian bay, Canada, stating that Boss Tweed and wo companions spent the winter on and and one hundred miles from Toronto. It appears that Tweed and two men loaded a small steamer last No-vember, just before the close of navi-gation, with great quantities of provi-sions and went to Mark's mill, which has not been running. Tweed and his companions lived in a cottage all the winter, the Boss keeping dumb, and it being given out that he had received a paralytic shock on the 24th of April. The steamer that took them up last fall arrived there again with a lot of provisions on board, but did not leave to Parks' mill, reaching there Saturday. On being discovered, the whole party fled on board the steamer by using small boats to convey them to the vessel. The small boat in which the Boss embarked was sunk, he getting a good ducking. Their escape in the boats was discovered by some four men with revolvers and shots were exchanged with the fleeing party and the detectives. The steamer escaped with Tweed to Georgian bay, the detectives being unable to follow. They expect to capture him soon. Parks' mill, reaching there Saturday The Cross-Tides Case.

Dr. Hitchcock proceeded with ear nestness and warmth to comment on the memorial presented last Saturday by Dr. Lanahan, charging the insolvency of the western book concern, and contending that the allegations of the emorial were untrue. Dr. Hitchock contended that the report of the ook committee, showing that the asbook committee, showing that the assets of the western book concern exceeded its liabilities over a half million dollars was strictly correct. He said that the reports of two different examiners of the western book concern agreed in every particular in establishing the correctness of the exhibit made by the book committee. The only disagreement was concerning a small materials of the exhibit made by the book committee. agreement was concerning a small mat-ter, as to the value of real estate held by the concern, which Mr. Hitchcock said was undervalued instead of over-valued.

Amos Spinklar and Dr. Walden, ir. Amos Spinklar and Dr. Walden, jr., agent of the western book concern, rose successively to questions of privilege and earnestly protested against the statement made in the memorial. Dr. Walden said the attack on the western book concern was a blow at its credit, and the statement charging its insolvency, given to the press, we know not how, was full of misrepresentation. He read a statement of the profits of several agencies of the western concern. al agencies of the western concern, showing a sound condition. At the con-clusion of his remarks, Dr. Walton of-

Whereas, the memorial in regard to our publishing interest presented on Saturday through Dr. Lanahan, and signed by C. Herbert Richardson, J. Miller, J. Bear and K. C. Whereas, the said statements in some

the western Methodist book concern. Dr. Walden—We want this for the protection of our interest in the west. The time has been when this conference shall protect our interests.

Dr. Lanahan arose to a question of privilege. The scenes he had witnessed here this morning reminded him of a scene he witnessed in New York when he was in a room locked up with fifteen men, and he felt as if he wou'd be torn in pieces because he had charg ed that the western book concern had been robbed. He had heard the same cry then as to misrepresentation. Dr. Hitchcock was not the Methodist

piscopal church nor was Dr. Walden They were servants of the church. He Lanahan) had entire confidence in Dr. Hinklar, and that he (Hinklar) ful-ly believed in what he had asserted, but examining books was a very nice question. John Jacob Astor and Mar-shall O E. Dr. Lanahan was proceeding to read a statement showing the annual losses of the book con-cern for several years back, when Mr

Dr. Hunter and others spoke on the latter motion, and after an understand-ing that the permission to proceed should not be regarded as overruling should not be regarded as overruling the decision of the chair, the motion of Mr. Hendricks prevailed.

Mr. Hendricks prevailed.

Dr. Lanahan resumed and said: To get at facts it was only necessary to pass a resolution to require a certain ledger to be brought here from New York; a ledger that had been thrown aside for fifteen years. The Methodist church had been cheated and swindled by false exhibits. He had here checks to the amount of one hundred and fifty. to the amount of one hundred and fifty-two thousand dollars stolen from the Methodist book concern. Dr. Lanahan held up in full view what seemed a package of checks. No such array of indignation as was attempted here this morning will smother the truths. He was not shut up here in a room as in New York while investigation was going on. There was another matter that might be investigated. There was a document, two-thirds of which had been left out of the journal of proceed-ing: of the last conference which should have been inserted, and this might be

Bishop Harris rose on the platform saying he was not a member of this conference, but desired permission to make a statement. He was secretary of the last general conference, for two-thirds of the session, when he resigned and Dr. Woodruff, secretary of the and Dr. Woodruff, secretary of the present conference, was chosen as his successor. Together they had edited the journal of the proceedings of the last conference, and supposed they had discharged that duty faithfully. In view of the statement made this morning, he asked the appointment of a special committee of five to investigate the charge and report the facts. He denied peremptorily, squarely and fully, any peremptorily, squarely and fully, any omission of records from the journal

of proceedings.

Dr. Woodruff disclaimed any omission, if such a thing had occurred it was not within his knowledge.

Dr. Lanshan rose and was proceeding to make a statement, when he was asked if he rose to a question of privi-

lege.

Dr Lanahan replied, he rose to speak in favor of a resolution for a special committee. He was proceeding with his statement in regard to the report of an examination made by John A Gann, when the chairman ruled it out of or-

Good Men and Politics.

Every morning the public conscience is shocked by new revelations of offi-cial corruption. The daily papers might keep certain head-lines "stand-ing" for constant use. Indeed we are surprised when the telegraph does not bring us tidings of new frauds practiced upon the people by some of their ser-vants—otherwise called public officers. Men ask their neighbors, as they open the morning paper: "Who fell yester-day?" or, "Who's found out now?" day?" or, "Who's found out now?"
It seems to be very like a general pestilence; it is here, there, everwhere. As in a great city desolated by cholera or yellow fever, they cease to count the dead, except in official records. Men become accustomed to death. At such times they grow careless and hard We saw, on one occasion, during a cholera saw, on one occasion, during a choiera season, men quarreling around an open grave about the fee for opening it. So now, official corruption has become so common that the people cannot "keep the tally," and the time has passed that new revelations can surprise them.
Official reputations are tumbling on every side. From the war secretary down-or up as men may judge -new names are being en-tered upon the black list. It is grow-

The chair (Bishor Forter) was back, when Mr O'Neal submitted a point of order, that this statement being read by Lanahan was not germain to the question before the conference vice the resolution of the influence of whisky and opium, and deliberately procured a club to kill some One thing is quite clear to us, we must not fall into a state of morbid suspiciousness of all public officers, ecause so many have turned out t

be thieves. There are, no doubt, hundreds of thieves, but, as we believe there are thousands of honest mer This is a day of investigation, and therefore of retribution, for the thieves Investigation turns a calcium liga-upon them and makes them conspicu-ous. But let us resist the temptation to universal suspicion. We cannot ge along in society without confidence in our social and religious creed is thi "Honest men are in the majority." To us it is, like the doctrine of justification by faith, "wholesome and full of com-fort." Croaking now is a sort of treas

senate and people of Rome. Good citizens should not despair of our American republic to-day.

But there are some great practical questions we had just as well make up our minds to take hold of in real ear For one thing, we have had

enough of government by professional positicians and chronic place-hunters. They have grown too great in their own eyes to be great in the eyes of sober men. They seem to think that the people exist for thim. They will actually bristle up with poreprise actually bristle up with porcupine indignation if their right to govern and tax the people for their special benefit is challenged. Did they not create the people? And do not the people belong to them?

The people, a great, patient pack horse, has carried the intolerable bur den of mere place-hunters for a gene-ration. But the load has grown burdensome and the horse is going to "unload" in some way. The riders would save trouble by dismounting at their "earliest convenience." The patience of the people is great, but it is not infinite.

not infinite.

Let the people—the good citizens, take their affairs into their own hands. They are quite able to manage them. Let them begin at the bottom—attend the "primary meetings" and vote and speak as well as the "professionals." It will startle the serenity of not a few. It will startle the serenity of not a few. But the people can staud it, if the office-hunters can't. There is great need of reform, as it seems to us, in the matter of attending the "primary" ward and county meetings. They have been welded into "rings" by the place seekers; let the people break the rings and make them what they are improperly called, "conventions." Our best men, as a rule, do not go near these meetings. And it is a very great misfortune for the country. The good men frequently wake up to the necessity of doing something to keep bad men from controlling public affairs, but, generally when it is too late.

The time has come for self denial—if self-denial be necessary for the discharge of a patriotic duty. Good men

charge of a patriotic duty. Good men-must take part—an active, controlling part—in politics. They must, and if they can put bad men out, and good men in

We want the wisest, strongest, purest, best men to rule over us. But the wisest, strongest, purest, best are not the men who have no business or trade in the world but to hold office and who have never done anything to merit office except to rend the heavens with their own praises and to weary and their own praises and to weary and disgust decent people with their inter-minable clamors, crying like the two daughters of the horse-leach "Givel Givel" Italian lazzorino are modest in comparison with these professional of comparison with these professional of-fice-seekers. BALTIMORE. May 8.—The following found its way into the republican state convention of Maryland from Mr. Blaine: "Ordinarily, I should be unwilliag to express any preference as to what a state convention might do touching myself, but of late, as you well know, yery persistent attempt has been mad to throw mud at me, and a pronounced expression from the Maryland convention in my favor would at this time be

"Were they blacks or whites?"
"Invariably blacks, and they generally voted the republican ticket. Councilman Goodwin moved to table the motion.

The vote was announced 6 for and 6 against, and the mayor voted for laying it on the table. It being stated that seven voted against laying on the table, councilman Richardson made the point that the aldermen who voted could not vote as it was reducing the pay of the police.

The mayor ruled the point well taken, and that the aldermen could not vote.
